### Hardy Marginal (5", 8", 12")

#### Arow Arrum - *Peltandra virginica*

Zone 4-10  
Height: 24"-30"  
Depth: Moist to 10"  
Dark, glossy, green arrow-shaped foliage.  
Great ponds edge and bog plant.  
Bloom Time: N/A  
Flower: Inconspicuous  
Habit: Clumping  
Exposure: Sun to shade

#### Arrowhead - *Sagittaria latifolia*

Zone 3-11  
Height: 12"-24"  
Depth: Moist to 6"  
Green arrow-shaped leaves and delicate, white flowers. Native wetland plant. Can be invasive.  
Bloom Time: July-Aug.  
Flower: White with yellow  
Habit: Upright  
Exposure: Sun to part shade

#### Bloody Dock - *Rumex sanguineus*

Zone 5-8  
Height: 12"  
Depth: Moist to 3"  
Dark blood-red veins on arrow-shaped leaves provide excellent texture and contrast.  
Bloom Time: N/A  
Flower: Inconspicuous  
Habit: Clumping  
Exposure: Sun to part shade

#### Blue Lobelia - *Lobelia syphilitica*

Zone 3-11  
Height: 2'-3'  
Depth: Moist to 3"  
A heavy bloomer with blue trumpet-like flowers. Prefers moist but not flooded soil.  
Bloom Time: July-Oct.  
Flower: Purplish blue  
Habit: Upright  
Exposure: Sun to part shade

#### Blue Mazus - *Mazus reptans*

Zone 4-9  
Height: 5"  
Depth: 0" to 3"  
Bright green leaves contrast the delicate orchid-like blue flower that cover this shoreline plant.  
Bloom Time: May- July  
Flower: Purplish blue  
Habit: Spreading  
Exposure: Sun to part shade

#### Bog Bean - *Menyanthes trifolia*

Zone 2-7  
Height: 2"-9"  
Depth: 1" to 3"  
Olive green, three lobed leaves form a dense mat with short-lived but fragrant star-shaped blooms  
Bloom Time: May- July  
Flower: White  
Habit: Spreading  
Exposure: Sun to part shade

#### Cardinal Flower - *Lobelia Queen Victoria*

Zone 4-9  
Height: 2'-3'  
Depth: Moist to 3"  
Deep scarlet flowers with dark maroon leaves.  
Bloom Time: July-Sept.  
Flower: Red  
Habit: Upright  
Exposure: Sun to part shade

#### Cattail Miniature - *Typha minima*

Zone 3-10  
Height: 12"-18"  
Depth: Moist to 4"  
Thin, delicate blue green leaves with rounded 1" catkins.  
Bloom Time: May-June  
Flower: Brown seed pod  
Habit: Upright  
Exposure: Sun to part shade

#### Cattail, Narrow-leaved - *Typha angustifolia*

Zone 3-11  
Height: 5'-6'  
Depth: Moist to 12"  
Slender graceful leaves and long narrow chocolate brown catkins. Valued for its water filtration abilities.  
Bloom Time: May-June  
Flower: Brown seed pod  
Habit: Upright  
Exposure: Sun to part shade

#### Cattail, Variegated - *Typha latifolia* 'Variegata'

Zone 4-11  
Height: 5'-6'  
Depth: Moist to 12"  
Green and white striped leaves. Cinnamon brown cattails create a stunning accent. Bloom Time: May-Jun.  
Flower: Brown seed pod  
Habit: Upright  
Exposure: Sun to part shade

#### Chameleon Plant - *Houttuynia cordata* 'Variegata'

Zone 5-10  
Height: 12"  
Depth: 0" to 3"  
Variegated red, green and pale yellow, heart-shaped leaves. White flower with green centers.  
Bloom Time: Jun.-Jul  
Flower: White and green  
Habit: Clumping  
Exposure: Sun to shade

#### Creeping Buttercup - *Ranunculus repens*

Zone 4-9  
Height: 4"  
Depth: Moist to 2"  
Dense creeping groundcover that has deeply cut green and gold snowflake-like leaves.  
Bloom Time: Spring  
Flower: Yellow  
Habit: Spreading  
Exposure: Sun to shade

#### Creeping Jenny - *Lysimachia nummularia*

Zone 4-9  
Height: 3"  
Depth: 1"  
Rounded, light green leaves that quickly form a mat along the edge of the pond in shallow water.  
Bloom Time: Summer  
Flower: Yellow  
Habit: Spreading  
Exposure: Sun to part shade

#### Forget -Me-Not - *Myosotis scorpioides*

Zone 3-9  
Height: 2"-6"  
Depth: 0" to 2"  
Low-growing plant with tiny blue flowers. Grows well in moving water such as a stream.  
Bloom Time: May- Sept.  
Flower: Blue  
Habit: Spreading  
Exposure: Sun to part shade

#### Horsetail - *Equisetum hyemale*

Zone 3-11  
Height: 24"-48"  
Depth: 0" to 2"  
Tall, slender, bamboo-like bog perennial, with hollow stems that remains evergreen.  
Bloom Time: N/A  
Flower: N/A  
Habit: Upright Exposure: Sun to part shade

Water Gardening

Aquatic Plants

**Horsetail, Dwarf - Equisetum scirpoides**

Zone 4-9  
Height: 8"  
Depth: Moist to 2"  
Dwarf horsetail with slender upright stems.  
Bloom Time: N/A  
Flower: N/A  
Habit: Upright  
Exposure: Sun to part shade

**Iris - Iris spp.**

Zone 3-11  
Height: 24"-36"  
Depth: 0"-12"  
Tall, narrow green foliage with large flowers in different colors. Easy to grow.  
Bloom Time: Varies  
Flower: Varies  
Habit: Upright/Clumping  
Exposure: Sun to part shd

**Lizard's Tail - Saururus cernuus**

Zone 4-11  
Height: 12" - 36"  
Depth: 0" to 6"  
Clumps of deep green heart-shaped foliage on red stems produces long foamy white flowers.  
Bloom Time: Early summer  
Flower: White  
Habit: Upright  
Exposure: Sun to shade

**Marsh Marigold - Caltha palustris**

Zone 3-9  
Height: 12"  
Depth: 0" to 4"  
Mounding plant with round leaves and bright golden-yellow flowers. Earliest blooming pond plant.  
Bloom Time: Spring-Summer  
Flower: Yellow  
Habit: Clumping  
Exposure: Part sun to shade

**Pickrel Weed - Pontederia cordata spp.**

Zone 4-9  
Height: 24"-30"  
Depth: Moist to 10"  
Shiny deep green lance-shaped leaves with flower clusters at the top of the plant.  
Bloom Time: Jun.-Sept.  
Flower: Purple, pink or white  
Habit: Upright  
Exposure: Sun to part shade

**Rosemallow - Hibiscus moschelutos**

Zone 5-10  
Height: 3'-5'  
Depth: Moist to 6"  
Leaves are egg-shaped and three lobed. Pink, white or reddish flowers are 4"-6" wide.  
Bloom Time: Summer/Fall  
Flower: Varies  
Habit: Upright  
Exposure: Sun

**Rush, Common - Juncus effusus**

Zone 3-11  
Height: 24"-36"  
Depth: Moist to 4"  
Grass-like plant with dark green cylindrical stems which form tiny tan flower clusters.  
Bloom Time: Summer  
Flower: Compact tan clusters  
Habit: Upright  
Exposure: Sun to part shade

**Rush, Corkscrew - Juncus effesus 'Spiralis'**

Zone 4-9  
Height: 12"-18"  
Depth: Moist to 3"  
Spiraling spikes create an unusual focal point or a good accent for more bold foliage.  
Bloom Time: N/A  
Flower: N/A  
Habit: Clumping  
Exposure: Sun to part shade

**Rush, Zebra - Scirpus 'Zebrinus'**

Zone 4-9  
Height: 4'-6'  
Depth: Moist to 6"  
Tubular green stems with white banding that become more pronounced when cool or the plant is well fed.  
Bloom Time: N/A  
Flower: N/A  
Habit: Upright  
Exposure: Sun to part shade

**Sweet Flag - Acorus spp.**

Zone 4-11  
Height: 8"-30"  
Depth: 0" to 3"  
Tall Iris-like foliage with green and white/yellow stripes.  
Bloom Time: N/A  
Flower: N/A  
Habit: Clumping  
Exposure: Sun to part shade

**Thalia, Powdery - Thalia dealbata**

Zone 5-11  
Height: 5'-6'  
Depth: 4"-12"  
Oval blue-green leaves are edged in purple. This hardy plant gives a tropical look to any pond.  
Bloom Time: Late Summer  
Flower: Purple  
Habit: Upright  
Exposure: Sun to part shade

**Water Mint - Mentha aquatica**

Zone 5-11  
Height: 6"-18"  
Depth: Moist to 3"  
The greenish leaves have a purplish underside and a strong, minty aroma. Flowers attract butterflies.  
Bloom Time: Summer - Fall  
Flower: Pink  
Habit: Spreading  
Exposure: Sun to part shade

**Tropical Marginal (5",8",12")**

**Bacopa, Lemon - Bacopa caroliniana**

Zone 7-11  
Height: 2-4"  
Depth: Moist to 2"  
Lemon-scented groundcover with vivid, blue flowers.  
Bloom Time: Summer  
Flower: Purplish blue  
Habit: Spreading  
Exposure: Sun to part shade

**Calla Lily - Zantedeschia aethiopica**

Zone 6-11  
Height: 12-36"  
Depth: Moist to 2"  
Glossy green, arrow-shaped foliage with large white funnel-shaped flowers.  
Bloom Time: Summer  
Flower: White  
Habit: Upright  
Exposure: Sun to part shade

**Canna - Canna spp.**

Zone 8-11  
Height: Varies  
Depth: Moist to 6"  
Tall growing, variegated or green leaves with brightly colored flower spikes. Many cultivars.  
Bloom Time: July-Sept.  
Flower: Varies  
Habit: Upright  
Exposure: Sun

**Papyrus, Dwarf - Cyperus isocladius**

Zone 8-10  
Height: 24-30"  
Depth: Moist to 4"  
Like standard papyrus but much smaller. Perfect for container gardens  
Bloom Time: July-Sept.  
Flower: Inconspicuous  
Habit: Upright  
Exposure: Sun to part shade

**Papyrus, Egyptian - Cyperus papyrus**

Zone 8-10  
Height: 6-8'  
Depth: Moist to 10"  
Graceful, arching, triangular stems tipped with clusters of needle-like leaves and flowers  
Bloom Time: July-Sept.  
Flower: Inconspicuous  
Habit: Upright  
Exposure: Sun to part shade

**Rain Lily - Zephyranthus Candida**

Zone 7-11  
Height: 6-10"  
Depth: Moist to 3"  
Slender, round, rush-like foliage with six-petaled crocus-like flowers. Easily overwintered indoors.  
Bloom Time: July to Sept.  
Flower: White  
Habit: Clumping  
Exposure: Sun to part shade
