Watch your work grow and bloom one flower after another, all starting from a stack of bulbs and tubers.

## Sunday April 14

### Rain, rain go away!

We'll do some planning and prep for our summer garden as well as creating a nature craft that will make the most of the rain, for better or worse.

## Sunday May 19

### Rainbow Veggie Garden!

Participate in planting a garden you can call your own! Learn how to nurture and feed edible plants so they can give it back to you come harvest.

## Sunday June 16

### Flight of the Dragonfly!

Create a Dragonfly and flowers from the "helicopters" of Maple tree seeds, a little paint and lots of imagination.

## Sunday July 21

### Fun in the sun!

Create a nature craft to take home and enjoy in the summer sun. Learn about what is happening in the garden and how to help plants in the heat.

## Sunday August 18

### Beat the bugs, Save the Bees!

Create a planter for your mosquito beater plants and learn about good and bad bugs in the garden.

## Sunday September 15

### Harvest time is here!

Taste the fruits, herbs and vegetables of your labor when we harvest the garden you planted and cared for this summer.

## Sunday October 20

### Pile o' pumpkins!

Create a pumpkin masterpiece with a little paint and a pile of mini pumpkins.

## Sunday November 17

### Feed the birds!

Create a nature craft to feed the birds and hang outside your window.  
Enjoy watching your feathered friends all winter.

## Sunday December 15
